Making healthcare remarkable

Novant Health – A snapshot

Who? – We are an inclusive team of purpose-driven people inspired and united by our passion to care for each other, our patients and our communities.

The Novant Health network consists of more than 1,500 physicians and over 26,000 employees that provide care at over 500 locations, including 14 medical centers and hundreds of outpatient facilities and physician clinics.

N: NOVANT HEALTH

Novant Health – A snapshot

What? Novant Health is a not-for-profit, integrated healthcare system that exists to improve the health of communities, one person at a time.

Where? We serve patients and communities in Virginia, North Carolina, South Carolina and Georgia.

HEALTH

Agenda

- HIPAA/privacy assessments and education

- Proactive monitoring

- Incidents and responses

- Q & A

N NOVANT
HEALTH

Privacy risk assessments and education

HIPAA/Privacy education

General education

We provide general HIPAA/privacy education in a live setting to physician clinics, acute care facilities and other departments throughout the organization. We cover the following topics:

1. Safeguarding PHI – locking computer, PHI destruction, social media, transporting PHI, voice level, paper PHI, email encryption and faxing/AVS/mailing PHI.

2. Reporting incidents – requirement to report, methods of reporting and accounting of disclosures

3. Accessing and disclosure of PHI – unauthorized access, minimum necessary, self-access, communicating with F&F

4. Department specific topics and Q&A

NOVANT HEALTH

HIPAA/Privacy education

Education initiatives

In addition to live education sessions, we provide other ways of dispensing HIPAA/privacy education across the organization.

1. Computer based learning modules (CBL) – we currently have a library of topics that can be completed in under 10 minutes. We also use them for quick re-education tools for leadership to use as part of progressive discipline.

   Topics include: accessing PHI appropriately, safeguarding PHI, minors, LE, transporting PHI, F&F, reporting incidents and privacy rights topics.

2. Annual mandatory education – delivered as part of a larger CBL that covers all organizational policies and procedures.

NOVANT HEALTH

HIPAA/Privacy education

Education initiatives

3. Campaign – For two years we saturated the organization with a "Pause.Prevent.Protect." campaign. This included producing videos, posters, screensavers and education kits for leadership to use each month.

   Here are some of the videos we produced:

   1. Unauthorized Access
   2. Social Media
   3. AVS/disclosing PHI
   4. Stolen device reporting

NOVANT HEALTH

HIPAA/Privacy education

Education initiatives

4. <u>Privacy & Cyber Security Agents</u> – an on-going follow-up to the PPP campaign. We are recruiting team members to "enlist" as a PCS Agent.

   ➢ Each month the PCS Agents get a new mission from headquarters. Each mission contains a nugget of privacy or cyber security information.

   ➢ The PCS Agent would then report & post the mission information to co-workers.

   ➢ In six months of this program, we are reaching around 1800 team members each month.

   ➢ Agents are given prizes each month via drawing.

N: NOVANT HEALTH

Privacy risk assessments

What to expect when you are NOT expecting the privacy office.

We are assessing via observation, testing and questioning:

1. Privacy rights of patients – NPP, forms knowledge

2. Appropriate disposal of PHI methods – vendor shred bins, TSC, trash cans, deskside shredders

3. Safeguarding electronic, paper and verbal PHI

4. Faxing safeguards – coversheet, machines

5. Knowledge of privacy policies and procedures – LE, F&F, self-access, how to report privacy incident

** 100 privacy risk assessments per year across organization*

N: NOVANT HEALTH

Proactive and reactive monitoring

HIPAA requirements

HIPAA requires that each covered entity have a program for monitoring access to patient records (see 45 CFR 164.308(a) and 164.312(b)).

Novant Health has a proactive and a reactive process in place to review access by team members.

The Privacy Office monitors, reviews and investigates improper use and disclosure of protected health information.
N! NOVANT HEALTH

Proactive monitoring at Novant Health

We utilize Fair Warning application. It combines EHR user logs and HR data.

We can monitor a variety of activity by customizing and selecting alerts to monitor the following:

- Snooping Activity: Co-worker, family member, household, neighbor, VIP
- Self Access
- Minor/Elder Access
- Deceased Patient Access
- Top User and Top Patient
- Peer Trending
- And many more!

N: NOVANT HEALTH

Proactive monitoring at Novant Health

Let's walk through an example…

- Alert received that a team member "user" who works at OBGYN Clinic A accessed information on a coworker "patient" on December 1, 2017.

- The "patient" had an encounter at OBGYN Clinic B on December 1, 2017.

- The "user" viewed the appointment desk, imaging orders, and lab orders for the "patient".

N: NOVANT HEALTH

Process

Run reports and review alerts.

Determine if the access is appropriate or questionable needing manager review.

Appropriate. Document. No further action.

Questionable. Contact manager. Privacy Office provides sample of the audit log and brief explanation of the access. Manager determines if access is appropriate or inappropriate.

Inappropriate

Follow-up Education

Manager and Human Resources determine disciplinary action.

Privacy Office performs Risk Assessment to determine notification requirements.

N: NOVANT HEALTH

Starting a proactive monitoring program

1. Staff to perform the monitoring work.
2. Socialize with leadership.
3. Educate team members.
4. Start small.
   - Look at one geographic region or one hospital facility then expand coverage.
5. Be mindful of other EHR Initiatives.
   - Ex: rollout of new EHR

N: NOVANT HEALTH

Benefits of proactive monitoring

1. HIPAA compliant.

2. Proof that Novant Health takes patient privacy seriously.

3. "Makes me feel better knowing you all are watching my information."

4. "As much as I value the team member, I don't want someone on my team who engages in this type of activity."

5. Self reporting when team member makes a mistake or accesses something that could be viewed as inappropriate in the course of their job.

6. Increase in team members reporting suspected cases of inappropriate access.

N NOVANT HEALTH

Incident response and management

Reporting incidents

We have multiple avenues for reporting HIPAA incidents within Novant Health.

1. Privacy Office email

2. Privacy Office voicemail

3. Alert Line

4. Direct emails & calls to Privacy Office team members

5. e-RL – event reporting module

6. Reporting tool for customer service

N: NOVANT HEALTH

Investigation process

Here are some components to respond to incidents that arrive in the privacy office.

1. Review of complaint/concern

2. Speaking with patients

3. Involvement of other departments

4. Time management and Organization

N: NOVANT HEALTH

Your Name	First & Last Name	
Your Contact Information	(###) ### - ####	
Date call was received	MM/DD/YYYY	
Caller's Name	First & Last Name	
Caller's Phone Number	(###) ### - ####	
Describe what you received.	Example: Two pages stating that a patient was seen at NHFMC ED for an x-ray.	
When did you receive the billing statement / letter?	MM/DD/YYYY	
Whose name is on the bill/letter?	First, Middle, Last	
Is there a second patient identifier on the bill/letter?	Example: The guarantor number is #########.	
Do you know this patient? If so how? - Was he/she a former resident at your address?	Yes/No Example: Former spouse who has since moved.	
Do you still have the documents?	Yes/No	
May I send you an envelope to return it? I will need your mailing address.	Yes/No 123 Name Road City, State Zip	
If the person no longer has the information or does not agree to return it, ask: - What did you do with the information? - What do you intend to		

Incident response

For confirmed incidents, specific steps are taken to complete the investigation.

1. Disciplinary action by HR
2. Risk assessment
3. Notification when necessary
4. Education for team members
